Building a living knowledge base
HubLAC mapping to strengthen evidence-Informed Policy in Latin America and the Caribbean

HubLAC
Latin American and
Caribbean Evidence Hub

Background

HubLAC aims to strengthen the regional ecosystem for Evidence-Informed Policymaking (EIP).
Inspired by PACE and EVIPNet, we are creating a living mapping of professionals and organizations across Latin America and the Caribbean.

Objectives

- Map and analyse actors shaping EIP across LAC
- Generate insights to strengthen partnerships
- Inform regional priorities
- Connect the ecosystem

Methods

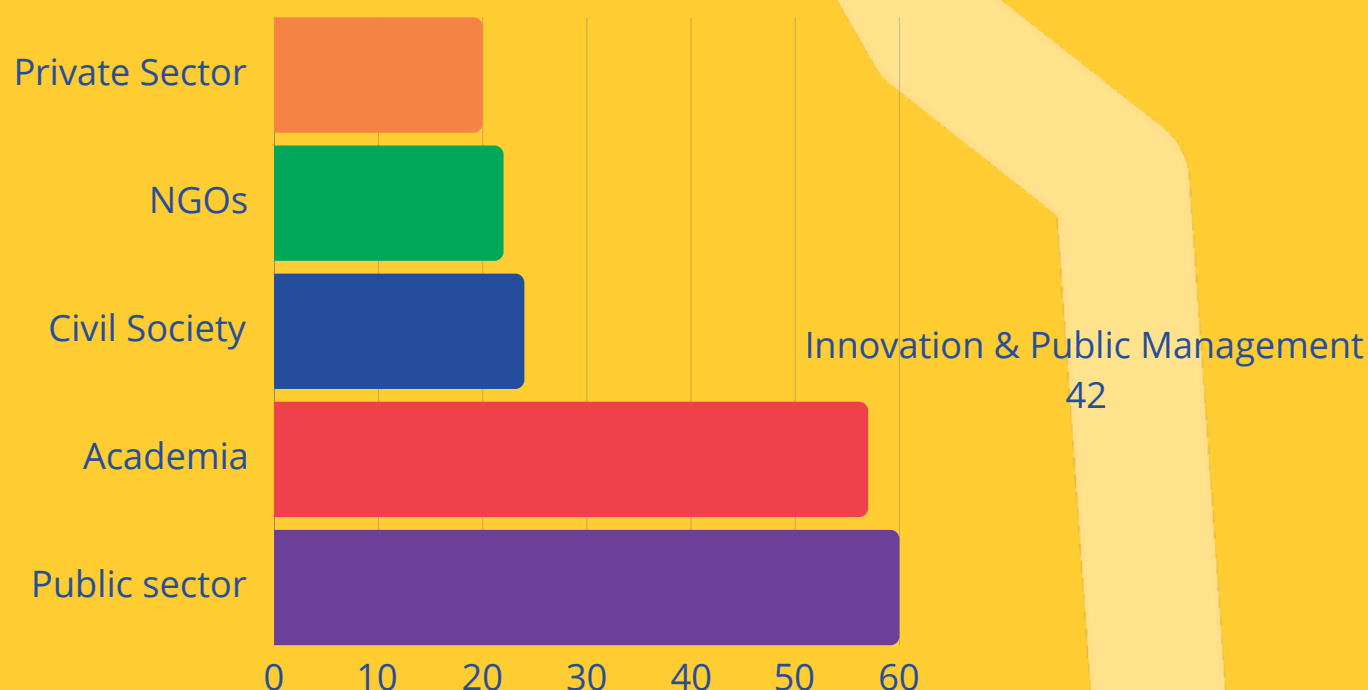

Online Survey

Semi-structured Interviews

Dynamic Knowledge Base

Get to know us

---

125 survey responses **// 15** countries
10 in-depth interviews [5 completed so far]

Private Sector
NGOs
Civil Society

Conclusions

- The mapping provides an initial regional EIP landscape
- Highlights key actors, roles, and thematic areas
- Reveals collaboration opportunities across sectors

Next Steps

- Match evidence supply and demand
- Expand the mapping in 2026
- Strengthen collaborations through HubLAC
